ABOUT WAC

For over 35 years, WAC has operated at the forefront of the lighting industry and prides itself on operating responsibly and building sustainable products that are progressive in both design and technology. Groundbreaking innovations in LEDs, materials, engineering and creative optical design are paving the way for endless possibilities. WAC is a world-class operation whose products are all thoroughly tested in a dedicated, internationally recognized NVLAP, UL and ETL certified testing laboratory.

WHAT IS AISPIRE?

Integrating the newest advances in LED technology with the latest cutting-edge features offered in controls, WAC is proud to launch AiSPIRE, a new lighting brand which elevates the human experience of light while connecting on a deeper level to your space. Exclusive to the Integration market, AiSPIRE reveals comprehensive, groundbreaking low and line voltage lighting systems that offer human centric lighting, flexible tunability, controllability, dimmability, and installation ease while reducing the carbon footprint. Customized solutions are offered in four types of lighting – Static White Light; Dim to Warm Lighting; Natural Tunable White; and Full Visible Spectrum Light.
