SAFETY INSTRUCTION

IMPORTANT: Never attempt any work without shutting off the electricity.

- Read all instructions before installing.
- System is intended for installation by a qualified electrician in accordance with the National Electrical Code and local regulations.
- Go to the main fuse box, or circuit breaker. Place the main power switch in the "OFF" position and unscrew the fuse(s) or switch "OFF" the circuit breaker switch(es) that control the power to the fixture or room that you are working on.
- Place the wall switch in the "OFF" position.

AVERTISSEMENT

IMPORTANT: Coupez l'électricité avant TOUTE manipulation.

- Lisez toutes les instructions avant d'installer.
- Système est destiné à être installé par un électricien qualifié en conformité avec le code national de l'électricité et les règlements locaux.
- Accédez au panneau central de disjoncteurs ou de fusibles de votre demeure et placez l'interrupteur principal en position d'arrêt (« OFF »).
- Placez l'interrupteur mural en position d'arrêt (« OFF »).

CAUTION:

All parts must be used as indicated in these instructions. Do not substitute any parts, leave parts out, or use any parts that are worn out or broken. Failure to follow this instruction could invalidate the ETL/cETL listing of this fixture.

TRIM MODEL

Refer to specification sheets for compatible housing and trim details. Follow appropriate housing instructions to begin installation.

TRIM INSTALLATION

1. Remove trim from trim assembly (See **FIG.1**).
2. Raise trim assembly to ceiling cutout and connect power connector and safety cable (See **FIG.2**).
3. Install connector cap onto top of trim assembly, careful not to pinch power wiring. Make sure the cap wire cable aligns with the notch on the top of heat-sink (See **FIG.3**).

AiSPIRE retains the right to modify the design of our products at any time as part of the company's continuous improvement program.
